Dear Applicant:

We are pleased you are interested in the Nursing Program at Mid Michigan Community College.

The Nursing Program has a required sequence of courses and a selective admissions procedure. The following checklist is your guide for admission into the Nursing Program. Students are not considered officially admitted to the Nursing Program while working on prerequisites. Official admission occurs once a student has been accepted, assigned a seat from the Dean of Nursing & Health Technologies into the Nursing Program, and have successfully passed a criminal background check.

It is strongly suggested that each step be completed in order:

_____ 1. Submit Admissions Application.

_____ 2. Complete orientation online at [www.midmich.edu](http://www.midmich.edu) by clicking on the Future Students menu. Also, schedule placement testing by emailing asctestproctors@midmich.edu. If preferred, call to schedule placement testing at (989) 386-6677 for Harrison or (989) 773-6622 ext. 287 for Mt. Pleasant, Pickard.

_____ 4. Schedule and attend a mandatory Nursing Information Session by going online at [www.midmich.edu](http://www.midmich.edu) click on Programs → Nursing → Prospective Students → Nursing Information Session Fill out the online registration form, choose a session and attend.

_____ 5. Register for classes.

_____ 6. Check the nursing website regularly for updates by going online at [www.midmich.edu](http://www.midmich.edu) click on Programs → Nursing. Application deadlines will be announced on the Nursing Website.

I look forward to meeting with you to further explain the Nursing Program, courses needed, selective admission process, and other recommendations for your success in obtaining your goal of becoming a Nurse.

Sincerely,

Barbara Wieszciecinski, MSN, RN
Director of Nursing
989-317-4625
