Attention Students:

During your clinical experience, you may be exposed to blood and other potentially infectious materials and may therefore be at risk of acquiring certain infections.

**On your first day of class you will need to show your instructor that you have:**

- ✓ A current negative TB test

**Vaccination record for the:**

- ✓ Hepatitis B (series of 3 injections)
- ✓ MMR-measles, mumps, and rubella

To obtain a TB test or the necessary vaccinations:

1. Report to a convenient Michigan Community Department of Health (Health Department) or your physician
2. Be sure to take your health insurance card with you.
3. If you need the hepatitis vaccine, please read the enclosed literature and take the HEPATITIS IMMUNIZATION POLICY STUDENT HEALTH RECORD FORM to your provider:
4. Bring documentation of the necessary vaccinations (Hepatitis B and MMR) and your TB test to your instructor as soon as possible
