NOTE: It is POSSIBLE for students to complete this program in a total of 2 years after the prerequisites are completed; however, due to the intensity of the NUR courses, it is suggested that students complete the additional required academic courses while awaiting admission to the program.
NOTE: Also available is a Step-Up program which provides entrance into the Associate in Nursing Degree Program at LEVEL II for qualified Licensed Practical Nurses. Credit for all LEVEL I Nursing courses are granted by virtue of an LPN License. For further information contact the Dean of Nursing & Health Technologies.

NOTE: All courses in a semester must be passed with a grade of “C” or better to progress to the next semester. BIO 141 & BIO 142 courses must be passed with a grade of “B-” or better to enter the program. Students must have a minimum GPA of 2.5 in the first 22 hours of listed prerequisites. If students have taken science courses prior to admission into a specific health program, the courses must have been completed within five (5) years of the date the student formally begins the program. Prerequisites may be repeated only once, which includes withdrawals.
