How to View Financial Aid Awards

1. From MidWeb for Current Students, select Financial aid status by year or Financial aid status by term.

2. Select the Award Year you wish to review by clicking on the arrow in the drop-down box and then clicking on the correct year & then Submit.

3. Review your financial aid award. Remember that these awards are estimates; adjustments may be made. For example, Pell Grants are initially calculated at full-time student status. If you do not register for 12 or more credit hours, your Pell Grant award will decrease. Additionally, Work Study is only eligible to those students who apply for, are hired for, and actually perform work service in a Work Study position at one of our MMCC locations. If your Financial Aid Awards will not cover the entire cost of your tuition and fees, you will need to pursue other options such as paying the difference by cash or credit card, filing for a loan, pursuing outside funding & scholarships, or setting up a payment plan. Learn more about these options by visiting our Financial Aid website.
